Approximate date(s) this client will be in the field are: \_\_\_\_\_.

The cost of this transportation service is: \_\_\_\_\_.

A copy of our Terms and Conditions as well as a copy of our brochure has been given to the hunters and by signing this contract do agree that they have read and understand them completely.

Hunters can communicate with Talon Air Service, Inc. by satellite phone while in the field (at hunters' expense). We do not rent satellite phones, you must make arrangements with a company that does. All hunters or hunting parties are encouraged to have a Satellite phone. Also, a "tarp" set out by the lake where the pilot dropped the hunters off will indicate that you need an unscheduled check, and any Talon Air Service, Inc. pilot who sees a "tarp" will make every effort to stop at the camp, if circumstances allow. If you have an emergency use your satellite phone and call 911 or signal the first aircraft you can to make them aware of the situation.

All cost of extra flights to transport meat or gear in excess of the norm for services booked, such as wanting more than the 125 pounds of gear allowed per hunter, will be the responsibility of the client. These matters should be negotiated at the time of booking and before arriving for your flight.

**Pre-weigh in is MANDATORY.** Talon Air Service, Inc. requires **ALL** hunting parties to pre-weigh their gear at least the day before their scheduled fly-out date. This is to insure that hunters are at or below the allowed 125 pounds of gear per person. **DO NOT WAIT TO WEIGH IN THE DAY OF YOUR FLY-OUT**, this could cause delays and you may be required to wait until we can work you back into the schedule. An inexpensive handheld airline baggage digital scale works great for all sizes of gear.

- a) Services provided under this contract are for transportation only.
- b) Guide services are not provided under this contract.
- c) The client is responsible for salvage of the meat during the hunt.
